

OIL SKIMMER

Extends Coolant Life, Easy to Install

MP Systems' oil skimmer effectively removes waste oil from the high pressure coolant reservoir. This extends coolant life and can reduce coolant disposal costs. Removing floating surface oils also extends cutting tool life and creates a cleaner shop environment by reducing smoke and odors.

Key Features

- Easy, Drop-In-Place Installation
- 17" Self-Tensioning Belt
- Overflow Prevention
- Crowned Pulleys Ensure Perfect Belt Tracking

Compatibility

Fits MP Systems High Pressure Coolant System Reservoirs Including:

- R Series
- VR Series

Footprint

9"L x 13"D x 21"H

Ship Weight 8 lbs.

Demand Quality. Insist on MP Systems.
